WHAT IS INFUSION THERAPY

IV Infusion Therapy is the process of injecting medications directly into the body through a blood vessel, under the skin.

Infusion Therapy is a safe, convenient and cost effective way to treat many diseases and disorders including:

- ✓ Migraines
- ✓ Rheumatoid Arthritis
- ✓ Crohn's Disease
- ✓ Ulcerative Colitis
- ✓ Multiple Sclerosis
- ✓ Osteoporosis
- ✓ Psoriasis
- ✓ Genetic Emphysema
- ✓ Anemia
- ✓ Lupus
- ✓ Asthma
- ✓ Gout
- ✓ Other Autoimmune Conditions
- ✓ Rare Diseases

EXPERIENCE THE DIFFERENCE

MPP Infusion Centers® are designed by an infusion patient, for infusion patients. What does this mean? The MPP Infusion Centers® experience has been crafted from the high expectations of our founder, an infusion patient herself, with a focus on proficiency and compassionate care. Everything we do is centered on ensuring the patient's infusion process is as safe, convenient, and comfortable as possible.

Our facilities voluntarily undergo a thorough evaluation by The Joint Commission. The goal of the evaluation? To confirm each facility meets the Joint Commission's rigorous performance standards in delivering quality, safe care. By meeting these standards, our facilities have received The Gold Seal of Approval® – an internationally recognized symbol of quality.

AFTER YOUR REFERRAL

MPP Infusion Centers® has created the *Patient Care Navigator* team to guide our patients and referring providers through the referral process. This group will notify the patient and referring office when the referral is received. They will also assist you through the process leading up to scheduling your first appointment.

The **Patient Care Navigator** team is here for you every step of the way. Ready to *Experience the Difference*? Ask your doctor for a referral today. Need help? Contact our *Patient Care Navigator* to get started.

Phone: **855-478-1528, option 5**

For the physician:
